Mr. Bono told us,

*"In the period I have been using **SOP STAR COW** (June 2014 to now), my animals have been doing really well. I haven't had any reductions in milk or any particular signs of stress, the **mastitis cases** have **gone down** and so has the **SCC**, the animals **start off well** and are **more productive**.*

*I used to have about 5-6 mastitis cases a month, now they are down to 3, sometimes even fewer. I used to have animals that didn't transition well or that suffered from **Clostridiosis**, but thanks to **SOP STAR COW**, and other management techniques, these are now **a lot fewer**. The people that take the animals off me at the end of their productive life called me, one day, to ask if I had changed supplier, in fact I haven't had any animals leaving the herd early for a long time!*

*The cows **start off well and produce well**, there are also **fewer new cases of dermatitis**, now I can go into the barn feeling **relaxed** and **confident**."*
